

bioSecure™ Encinnate™ 12

Product

bioSecure™ Encinnate™ 12

Animals

Swine, Poultry, Calves, and Turkeys

Product Usage

bioSecure™ Encinnate™ 12 is used in any type of feeding system when animals are stressed or weaning. It can also be used as an ingredient in products developed to alleviate stress.

Ingredients

bioSecure™ Encinnate™ 12 is a proprietary mixture of essential oils coated with BioMatrix's patent pending colon specific delivery technology.

Typical Analysis

bioSecure™ Encinnate™ 12 contains a minimum of 70% inulin.

Directions for Use

Encinnate™ 12 is used at a rate of 1-2 pounds per ton of feed to supply 318 to 636 grams of inulin. Encinnate™ 12 can be combined with direct fed microbial, trace minerals and enzymes.

Packaging

bioSecure™ Encinnate™ 12 is packaged in 50 pound (22.73 kg) bags.

Storage

Well ventilated, cool and dry areas.
